To: All Prospective Clients

We have grown to more than 500 employees and our complex payroll requirements have expanded to more than 20 locations so for the past 5 years we have engaged CSE to support the A1 Payroll system that they developed to integrate seamlessly with our existing Time and Attendance software supported jointly by Time America.

We are happy that CSE understands the entire payroll process from time collection to EFT and were surprised by the high level of assistance that they are able to provide when dealing with our bank or the CRA.

CSE has remote access to our servers and we have found all of their technicians to be very helpful assisting us remotely with both hardware and software and they also have local technicians to provide onsite support from time to time.

I am sure you will be satisfied if you choose CSE and feel free to contact me with any questions.
